XY-233

Multi-layer color splicing Sunglass Frames

XY-233 is a multi-layer color-spliced sunglass frame in acetate with a stacked front. Hand polishing follows bonding, which keeps the seam line level.

Material	spliced acetate
Size L/B/T	51 / 17 / 145 mm
Gender	Women
MOQ	300 pairs per model
Lead time	45-60 days after sample approval
Customization	Logo · Color · Packaging

XY-163

Custom Spliced Acetate Optical Frames

XY-163 is a spliced acetate optical frame built to your color and logo spec. Panels are bonded, then hand-polished, and seams are checked before assembly.

Material	spliced acetate
Size L/B/T	54 / 14 / 145 mm
Colors	brown + orange, red + purple, purple + pink
Plating	shiny gold
Gender	Women
MOQ	300 pairs per model
Lead time	45-60 days after sample approval
Customization	Logo · Packaging

XY-164

Spliced Acetate Optical Frames

XY-164 is a spliced-panel optical frame in acetate, cut and bonded in-house. Custom logo and packaging are handled in the same production run.

Material	spliced acetate
Size L/B/T	51 / 14 / 145 mm
Colors	green, light coffee, light purple, pink
Gender	Unisex
MOQ	300 pairs per model
Lead time	45-60 days after sample approval
Customization	Logo · Packaging

All models can be produced in your own colors, logo and packaging. MOQ 300 pairs per model.

Why brands work with us

Since 2010	15+ years producing acetate eyewear for export markets.
Spliced acetate in-house	Panels cut, bonded and polished on our own line — no subcontracting.
50–70 hours of hand polishing	Each frame is polished by hand before assembly.
±0.1 mm CNC tolerance	Frame fronts and temples machined to drawing.
Sampling 10–15 business days	Bulk production 45–60 days after sample approval.
MOQ 300 pairs	Custom color, logo and packaging from the first order.
